

## TERMS OF REFERENCE (TOR)

---

### **PROCUREMENT OF THE SERVICES OF A RESEARCH COMPANY TO CREATE THE MARKET BRIEF OF THE TOP 13 SOURCE MARKETS OF THE PHILIPPINE INBOUND TOURISM PLUS DOMESTIC MARKET, INCLUDING MARKET UPDATE REPORTS**

#### **I. BACKGROUND**

The Tourism Promotions Board (TPB), an attached agency of the Department of Tourism, is mandated to market and promote the Philippines domestically and internationally as a world-class tourist destination. It envisions the Philippines to become the preferred destination for sustainable, uniquely diverse and experiential travel. With this goal, the TPB has continuously implemented programs, projects and activities that aim to position the Philippines as a top of mind destination, improve the perception on the country as a unique and safe destination, and ensure steady promotion of major tourist destinations in various media.

To prepare effective marketing strategies and provide direction to its promotional efforts, the TPB is keen to gather demographic and psychographic data about its key markets. Traditionally, demographic information, which includes age, ethnicity, religious beliefs, occupation, and educational level, used to be the primary data being gathered by many organizations to improve their products and services. However, in recent years, psychographics became a mainstream and changed the way data are collected, analyzed, and applied. Through psychographic data, organizations gain deeper insights on their target markets' psychological and emotional motivations and concerns, providing them with an idea on how their markets' think and behave. By using a good combination of demographic and psychographic data, marketing efforts become more relevant, logical, and directed towards the right audience.

#### **II. OBJECTIVES**

In view of the above, the TPB, through the Corporate Planning and Business Development Department, would like to commission the services of a research company to conduct an annual market brief and quarterly market update reports, with the following objectives:

- To be up-to-date with the changing psychographic profile of travelers and tourism trends, with additional information related to demography;
- To understand the changes in the motivations, concerns, and preferences of travelers;

- To determine the current standing of the Philippines in terms of visitor arrivals (among ASEAN countries); and
- To gain insights on different market trends that directly or indirectly affect propensity to travel

**III. SCOPE OF WORK AND DELIVERABLES:**

**A. Geographical Coverage (Source Markets)**
